## Jesus Is The Only Answer

The Bible says in Isaiah 5:20-21, “Woe unto them that call evil good, and good evil; that put darkness for light, and light for darkness; that put bitter for sweet, and sweet for bitter! 21 Woe unto them that are wise in their own eyes, and prudent in their own sight!”

Our nation is failing, not because of the lack economic prosperity, but from the lack of honoring the Lord Jesus Christ, the destruction of the family through abortion, and the legalizing of what they term as “same sex marriage”. The darkness of evil has engulfed America into a cesspool of wickedness. America has not been a true Christian nation for many decades. We who know the Lord as Saviour are a Christian people in a heathen land. The only hope for America is the preaching and witnessing of the gospel of Jesus Christ.

The great early American Statesman Patrick Henry said, “It cannot be emphasized too strongly or too often that this great nation was founded, not by religionists, but by Christians; not on religion, but on the Gospel of Jesus Christ.”

False religion is destroying America. There is no hope in the pope. Catholicism and Islam are smothering the last of the spiritual light out of America. False religion is simply man worship. There is no difference between Mohammad, the pope, and other false religious leaders because they are deceivers concerning the truth.

Our nation has turned its back on God for so long, that even killing of millions upon millions of unborn babies in their mothers' wombs has become shamefully a part of the American way of life. Adolf Hitler exterminated about 6,000,000 Jews in his quest to build a superhuman race. The unborn baby exterminators have slaughtered in the abortion mills across this country several times the amount that Hitler killed. The Bible says in Psalm 9:17, “The wicked shall be turned into hell, and all the nations that forget God.” Our nation condemned Hitler, but millions of Americans support and promote the killing of unborn babies.

President Ronald Reagan wrote this, “The family has always been the cornerstone of American society. Our family nurtured, preserved, and pass on to each succeeding generation the values we share and cherish, values that are the foundations of our freedom. In the family we learn our first lesson of God and family, love and discipline, right and responsibilities, human dignity and human frailty. Our family gives us daily examples of these lessons being put into practice. In raising and instructing our children, we provided personal and

compassionate care for the elderly. In these and other ways, the America family make immeasurable contributions to America's well-being.

“Today more than ever, it essential that these contributions not be taken for granted. And that each of us remember the strength of our families is vital to the survival of our nation.

“We cannot diminish the value of human life, the unborn, without diminishing the value of all human life. There is no cause for abortion.”

**Capitol Hill Independent Baptist Ministries has been called to defend faith in Jesus and family, in preaching and witnessing the gospel of Jesus Christ in Washington DC and the State Capitols across this land of ours. Missionary-Evangelists James and Charles Creager, who are with me in this ministries, together we are fierce defenders and believers in the King James Bible. The Bible says in II Timothy 4:1-5, “I charge thee therefore before God, and the Lord Jesus Christ, who shall judge the quick and the dead at his appearing and his kingdom; 2 Preach the word; be instant in season, out of season; reprove, rebuke, exhort with all longsuffering and doctrine. 3 For the time will come when they will not endure sound doctrine; but after their own lusts shall they heap to themselves teachers, having itching ears; 4 And they shall turn away their ears from the truth, and shall be turned unto fables. 5 But watch thou in all things, endure afflictions, do the work of an evangelist, make full proof of thy ministry.”**

This ministry is dedicated to the vision of seeing the lost souls of the political leaders and staff members to come to know Jesus Christ as Lord and Saviour.

I want to thank the pastors and their church families for your many years of prayer and financial support in making a difference in America through the ministry of Capitol Hill Independent Baptist Ministries. There has been many Independent Baptist pastors and churches that have been involved on both federal and state level in this ministry because of your support. Thank you once again for your prayers and financial support.

Pastor Franklin D. Raddish  
Founder/Director of Capitol Hill Independent Baptist Ministries

## **The Ten Commandments Judge**

The Bible says in Jude 3, “Beloved, when I gave all diligence to write unto you of the common salvation, it was needful for me to write unto you, and exhort you that ye should earnestly contend for the faith which was once delivered unto the saints.” Rarely have we seen a politician, who professes to know Jesus Christ as Saviour, that after that individual is elected, to see him live a Christ-filled life in the political office. One such man, who lives like he has professed it as a political leader, is Judge Roy Moore of Alabama.

Judge Roy Moore's political career began as a lower court judge in Alabama. He was attacked by the leftists in Alabama for having the Ten Commandments posted in his courtroom. He refused to take down the Ten Commandments plack from his courtroom, and became known as “The Ten Commandments Judge.” Judge Moore has been elected as the Chief Justice of the Alabama State Supreme Court twice by the Alabama voters. On both of these elections, Judge Moore stood ardently for God, family, and country. He was removed twice as the Chief Justice of the Alabama State Supreme Court. On the first occasion, he refused a Federal Judge's court order to remove a Ten Commandments monument that he placed in the Alabama Sate Supreme Court building. He recently was removed as Chief Justice because he stood against “same sex marriage” in the state of

Alabama. Judge Moore is running for the US Senate. He has won the Republican primary, and is now running against the Democrat in the general election. We need to support this dedicated Christian with prayer and financial support. If you can, make your check payable and send to: Judge Roy Moore for US Senate, PO Box 5032, Montgomery, Alabama 36103.

Pastor Franklin D. Raddish

## The Fear Of The LORD: Introduction

*The fear of the LORD is the beginning of knowledge: but fools despise wisdom and instruction.  
(Proverbs 1:7)*

The fear of the Lord is one of the most well known and important topics and themes in the Bible. It appears in various forms throughout the scriptures--especially in the book of Proverbs where it shows up in various ways at least fourteen times. A simple glance through Proverbs makes it clear that the fear of the Lord is of great importance to everyone. For example, in addition to our text, Proverbs 3:7 says, "Be not wise in thine own eyes: **fear the LORD**, and depart from evil." [Emphasis, mine.] And again as it is written in Proverbs 9:10, "**The fear of the LORD** is the beginning of wisdom: and the knowledge of the holy is understanding." These and other verses, which we will examine in this series of articles, clearly demonstrates the importance and the need of the fear of the Lord in a person's life.

What exactly is the fear of the Lord? What does the scriptures mean by this phrase? What does it mean to fear the Lord? One would think that Christians unanimously agree on its meaning; however, as with other things in this Laodicean Age of Church History we live in (see Revelation 3:14-22), it sadly depends on who you ask. Many preachers today, including the last fifty to a hundred years (especially among Independent Baptists), would tell you that the fear of the Lord has nothing to do with actual fear, but rather simply showing God the reverence and respect He deserves. Today, as we were warned in the scriptures by the Holy Spirit through the Apostle Paul in II Timothy 4:3-4, we live in the time "when they will not endure sound doctrine; but after their own lusts shall they heap to themselves teachers, having itching ears; And they shall turn away their ears from the truth, and shall be turned unto fables." Far too often in these last days, the modern, professing Christian will ignore what is suppose to be their final absolute authority, in favor of their favorite teacher, preacher, or commentator. But this should not be the way. For all born again Christians, the King James Bible is our first and final absolute authority on **ALL** matters of faith and practice.

With that said, what does the scriptures themselves say concerning the fear of the Lord? Does the King James Bible agree with the above teaching from pulpits around the world--including the USA? **SPOILER ALERT!!!** As we will discover in this series, God's word does not support this error. As we will see, showing God reverence and respect is the fruit or result of fearing God, not the fear of the Lord in of themselves.

In the previous issue of this newsletter, we looked at the Law of the First Mention. Having set the stage for this series this issue, in our next article, we will dive into what the written word of God has to say about the fear of the Lord. Specifically, next article we will put into practice what we learned concerning the Law of the First Mention. We will examine the Bible's first thoughts concerning fear itself and the fear of the Lord.

Field Representative of Capitol Hill Independent Baptist Ministries

## THE BIBLICAL CREATION SCIENCE CORNER

### Reasons Evolution is Not Science: Part 1

First of all I need to clarify the fact that by Evolution, I am referring the entire Big-Bang-to-Man story. The term *evolution* is often used just to refer to the Microbe-to-Man story, but the word *evolution* is also used for other parts of the entire story as well. Evolution is promoted as science by schools, TV, movies and secular science publications; however, while some real science is done under the auspicious of Evolution, Evolution itself is no science and is not scientific. Here are some of the reasons it does not actually qualify as science.

**Its proponents ridicule opponents.** The proponents of Darwinian Evolution routinely ridicule anyone who does not accept Evolution. They will insult your intelligence, attack your qualifications and just generally ridicule you. First of all, this not being scientific because science is about data and evidence, not attacking opponents. Second, this is a logical fallacy called an *ad hominid*, which attacks the person rather than their position. This is done to discredit a position by trying discredit the person presenting it. The reason this is a fallacy is because the truth of the position is not negated by the person proposing or presenting the position. However, it is not an *ad hominid*, if you can show dishonesty in the actual content of their argument.

**It requires a monopoly to keep it viable.** The simple fact is that Evolution could not stand as a model of origins without having a monopoly within the Scientific Establishment, public education, and in secular universities. This monopoly is, not a result of overwhelming evidence, but a result of ridiculing and otherwise attacking opposition. Evolutionists have even sued in court to keep both Intelligent Design and Creation Science out of public schools. This needed monopoly includes a monopoly on government grants such that they can out spend the opposition by thousands of times. They also maintain a monopoly on access to major fossils and other relevant finds--meaning that opposing views have to rely on their pictures, drawings, descriptions and other data to do their own research. Without this forced monopoly, Evolution would crumble like the house of card it is if it had to compete with other views of origins on an equal footing. This is particularly true of Biblical Creation, which is its main competitor.

**It hinders scientific research.** Despite claiming to be scientific, Evolution has hindered scientific research, because it has caused some possible explanations to not be studied. The most notable example has been “junk DNA.” “Junk DNA” is a term given by Evolutionists to DNA that does not encode proteins because they thought it was useless leftovers from biological evolution, and so it was not studied for decades. However, the ENCODE project finally did study this non-encoding DNA, and found out that it is not only functional, but often serves important regularity and other functions.

While these first three examples do a good job of showing Evolution as being unscientific, there are more to follow. The remaining seven examples will add to the case against Evolution being in anyway scientific. It is also important that Biblical Creationists do not follow their tactics. We have no need to be insulting to Evolutionists because the truth is on our side, and we have the higher standard of God to uphold.
